

JCVGantt PRO 3

Plan visually, save time

Scheduling software for projects.

Track projects and tasks with this easy to use, yet powerful solution. It enables executives, project managers and event organizers to improve the accuracy of their time and cost estimating while decreasing the time it takes to plan a new project.

Reasons to love JCVGantt

- ✓ **CREATE CHARTS IN MINUTES** > Jump-start with drag-and-drop GanttParts™, designed to let you think through a project schedule once, and then use it again.
- ✓ **CUSTOMIZE PROJECT COST REPORTS** > Produce customizable project cost reports. You can also export to and import from Microsoft Excel.
- ✓ **SYNCHRONIZE WITH MINDMANAGER** > Brainstorm and list all project tasks in MindManager and watch them instantly synchronize in JCVGantt Pro 3.

PERFECT FOR THE BUSINESS INDIVIDUAL WHO MANAGES PROJECTS

- ✓ Enter task information rapidly
- ✓ Accurately calculate project duration and costs
- ✓ Create and reuse your own project metrics & resource information
- ✓ Instantly identify the project's critical path

INSTANTLY SYNCHRONIZES PROJECT DATA WITH MINDJET MINDMANAGER 8'S VISUAL INTERFACE

- ✓ Create plans automatically while you brainstorm
- ✓ Capture project information & schedules
- ✓ Switch between Gantt and map views of projects
- ✓ Evaluate options & pursue the most promising strategy

JCVGantt PRO 3

Project Management

RobinzCAD

"While I spend most of my time in MindManager the ability to take that information into JCVGantt Pro when needed is very handy. Perhaps the best advertisement is **when I installed JCVGantt Pro I removed MS Project, and I haven't missed it.**"

Robin Capper, RobinzCAD Blog

PM Knowledge Network

"I use MindManager & JCVGantt to: Manage project related tasks, requirements and documentation in one single place to easily have access to my project related information at a moment's notice." *Patrick McKeown, Project Manager*
